

KitLock KL3 Mechanical

Designed with simplicity in mind, the KL3 offers mechanical keyless access suitable for a variety of lockers, cabinets and cupboards.

A durable, compact, easy to use mechanical locker lock. Designed to be both retrofitted or installed on new cabinets. This offers the benefits of a combination lock with the ability to have a code finder key should the user forget the code. This is where the KL3 comes in, as it offers both exceptional value and the practicality of the 3 wheel code combination, with additional code finder key. The applications are but not exclusive to offices, schools, dedicated lockers in warehouses, gyms, colleges etc.

Easy to install

Mechanical keyless access

One year guarantee*

- Suitable for internal and external use

Lock Models

Private Function

The KL3 Private Function is ideal for use where the same, personal 3 digit code will be repeatedly used, e.g. an employee with the same locker/drawer in the workplace.

Code Retrieval

This function requires the Master Key (sold separately). Allows a code to be retrieved should it be forgotten or emergency access is required.
