

HIGH SECURITY SAFES | ENDLESS CUSTOM ELEMENTS

 INFINITY.

SAFES ARE PERSONAL

Everyone has their own idea of what is priceless and everyone has their own idea of what makes the perfect safe to properly secure what is most important.

Infinity™ by Dominator Safes allows you to decide just how you like it.

Start with one of our high security fire and burglary safes, to reflect the level of security required, then add your personal touch.

Choose any paint colour from an internationally recognized database, and decide which finish the paint is applied in. Or you can opt for a luxury leather bonded exterior with various pattern options.

Internally, you can choose to install mechanical watch winders, drawers with luxury lining and jewellery organisers. Custom shelving or compartments, sensor operated LED lighting and even mirror panels. All of these components can be manufactured in timber veneer or coloured paneling, carbon fibre or leather bonded. There is no limit to the possibilities.

Don't settle for a safe that is not made just the way you like it. With Infinity™ by Dominator Safes, you can decide.

by Dominator Safes

Start by choosing one of our premium high security safes. Dominator Safes DS, FA and FX Series all provide an incredible 105 minute CNS Certified fire resistant rating, ensuring maximum protection from fire.

Each of the 3 model series have been listed with a Cash Rating, designed to provide clarity when comparing different models of safe. The higher the cash rating, the better the protection the safe will provide in the event of forced entry attacks.

by Dominator Safes

Choose your preferred paint colour from 1625 different colours in the internationally recognized RAL colour system.

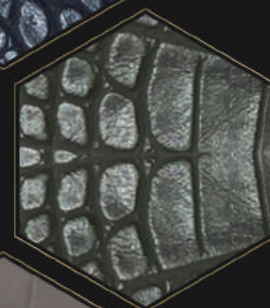

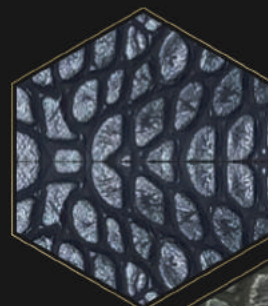

All colours can be applied in a High Gloss, Satin or Textured finish, providing thousands of possibilities for a completely unique look.

 INFINITY

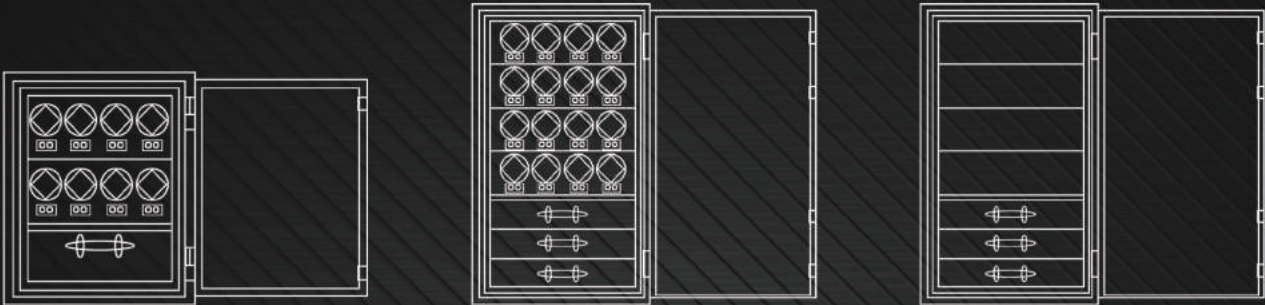

Or you can choose from over 160 different types and colours of leather bonding for the luxury feel.

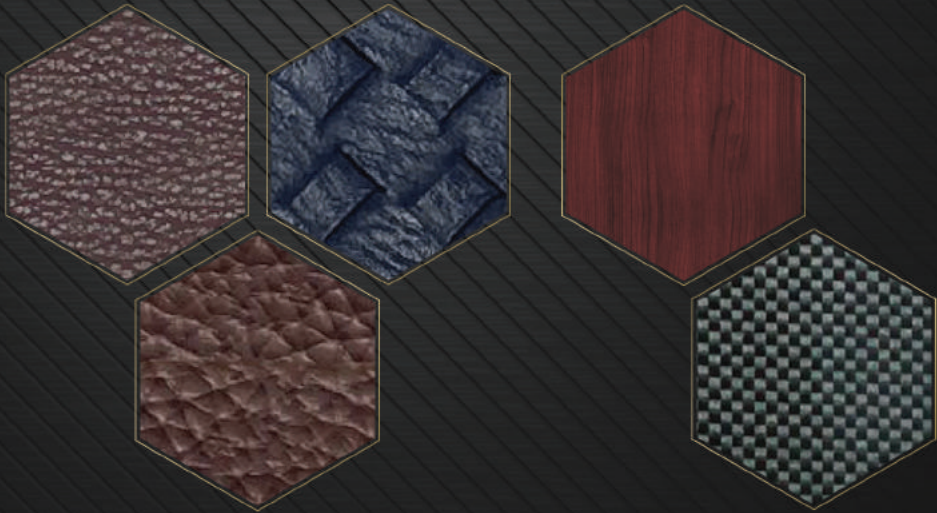

by Dominator Safes

Configure your own internal fixtures, adding mechanical watch winders, custom shelving and jewellery trays. We will work with you to design the most practical layout to accommodate your most prized possessions, securing them in the most effective way possible.

Choose one of several timber veneer finishes in mahogany, maple, ebony or rustic colours, carbon fibre paneling with stainless trims, leather bound lining and drawer fronts or choose from dozens of other laminate colours.

Interior door back panel can be fitted with jewellery or key hooks, mirror panels or storage pockets to maximise the use of every part of the internal space.

All models come with sensor operated LED lighting, powered with Australian standard 240v wall plugs for ease of use.

CHOOSE YOUR PREFERRED SECURITY DEVICE.

Select from the world's leading brands of safe locks, made specifically for high security applications, while providing the most efficient functions possible.

Kaba LaGard Basic Electronic Lock

The most efficient high security lock suitable for all domestic and commercial applications. The ease of use and reliability of the LaGard Basics series is second to none. The most dependable electronic safe lock on the world market.

Kaba LaGard 39E ComboGard

Building on the LaGard Basic Series, the 39E provides multiple user codes, time delay opening controls and dual code control mode, ensuring more options and adaptability.

Kaba LaGard 66E AuditGard

The 66E AuditGard safe lock provides 9 different user codes and the ability to record which codes accessed the safe at which time, making reporting and transparency simple.

Kaba Lagard Smart Series

The premier safe lock for high end applications, incorporating fingerprint access and multiple configuration options for maximum versatility and security.

Ross 1000 ECL with Key Override

Ross safe locks allow for a restricted mechanical key override that is not easily overridden. The only Australian made safe lock that provides key override capabilities.

Ross 1000 BIO Fingerprint

A variant of the 1000 series lock that provides fingerprint access security for simple, easy to use security, available with and without key override.

All of the safe locks we use on our safes are high security locks of World Class quality and reliability. All locks provide security that ensures protection against all types of manipulation and forced entry.

From the Basic Series up to the Smart Series, all models provide exceptional security, it is just the features of the locks that vary from model to model. Features available are:

- Multiple user codes
- Time delay settings
- Dual code access
- Audit trail recording
- Time scheduling
- Silent / Duress alarms
- Fingerprint access

We can install any lock onto any safe, so you can choose the features that suit you individual application.
