

KeySafe Original (Portable) key storage

Overview

The KeySafe Portable provides convenient, managed access to stored keys (max. 3). It is especially suited for temporary key holding and for alternative use as a keyless padlock.

The code can be changed anytime for added security.

The KeySafe Portable has a protective rubber shell around its body and shackle to prevent surface scarring.

A neoprene rubber protective cover is also available to prevent water intrusion and to hide out of sight.

Construction

The KeySafe Portable is made of a non-corrosive alloy with a Black powder-coat finish. The shackle is made of hardened steel.

Installation

No tools are needed to install the KeySafe. Simply open, release the shackle and hang on the doorknob or fence, lock the shackle and replace the lid.

Operation

- Slide the "CLEAR" button down to reset the buttons.
- Push the appropriate combination code.
- Press down the "OPEN" switch and remove the lid.
- After use of the key, enter the code again, press down the "Open" button and place the lid back.
- Release the "Open" button and the lid will be locked.

Applications

Residential applications: on gates, fences, shelter entry, garage doors, taps, . . .

Business applications: access to construction sites, home healthcare access, access to cabinets, property management, remote sites, . . .

Standard Features

- Easy-to-use
- No tools needed for mounting
- Change combination as often as needed.
- 1024 possible combination codes
- Holds up to 3 keys

KeySafe Original (Portable)
